Foreword

It is with regret that we must refrain from disclosing the name of the owner of this, the WORLD'S GREATEST COLLECTION of UNITED STATES SILVER COINS. For, while the name might not be familiar to many from a numismatic standpoint, certainly from the standpoint of its importance and stature in public life it would be familiar to all.

For over fifty years our anonymous consignor added to the collection and improved on specimens previously acquired. The result is as fine a collection of coins as could be obtained.

Part I of this magnificent collection is offered in this publication and includes the Silver Dollars and Trade Dollars. Outstanding among them are the 1794 which is a superb, uncirculated specimen and as such one of the two known in this condition; the 1870-S which has only once before been offered at auction; the many varieties of the 1795, 1798, 1799, and 1800 dollars; all of the proofs from 1840 to 1904; and the choice mint marked series.

In addition, we have reprinted the standard work on the series, HAZELTINE'S TYPE TABLE of UNITED STATES SILVER DOLLARS. We know that this feature will be enthusiastically received in numismatic circles. The reference H-1 etc. for each coin stands for Hazeltine No. 1 of that year. Pages I to XII give the complete Hazeltine description of each coin and collectors may readily refer to those pages.

A point worth mentioning in regard to the coins and their photographs; the photograph precedes the coin described in all instances. *None of the coins have been cleaned and none of the photographs have been retouched.* You may bid with the certainty that the coins will look as good as, or better than, the photographs. With this thought, we respectfully submit this catalogue to you.

—The Cataloguers.

Terms of Sale

1. Bid so much *PER LOT*.
2. No BUY or UNLIMITED BIDS WILL BE ACCEPTED. Bid liberally and coins will be purchased for your account below your bids whenever possible.
3. NO COMMISSIONS charged for executing your bids. Postage and insurance will be added to your invoice.
4. Parties unknown to us should supply us with suitable references or a deposit equal to 25% of their bids.
5. Terms are cash. Remittances to be made when bills are rendered. *Our pledge to make complete settlement 30 days after the sale, requires that buyers co-operate by making prompt payments.*

SPECIAL NOTICES

- a. This is a PUBLIC AUCTION SALE and all are invited to attend. Mail bidders are urged to send their bid sheets in early. Every sale finds some bidders too late.
- b. Lots will be on exhibition at the NUMISMATIC GALLERY, 42 East 50th Street, from January 15th to January 20th. Because of the choice condition and the numerous varieties of coins, *lots will be shown by appointment only.*

Write early or telephone, PLaza 3-1841
or PLaza 3-5841

and arrangements will be made.

- c. Prices following listings are *estimates* only and are intended only as guides for bidders.

CATALOGUE

United States Silver Dollars

PHILADELPHIA MINT

1

1794

1—1794. *Uncirculated*. Head of Liberty to right, flowing hair, with eight stars behind and seven stars facing; LIBERTY above and 1794 below; rev., Small eagle in wreath; inscription, UNITED STATES OF AMERICA. Edge lettered, ONE DOLLAR OR ONE HUNDRED CENTS. There is only one die known of the 1794 Dollar; the date is the first of the issue and generally accepted as the rarest of the entire series. In this magnificent state of preservation it is all but unique, there being known but one other specimen in this condition. The example now offered cost over \$1000.00 twenty five years ago. It would not be surprising if it sold for \$2500.00 today.

THE DOLLAR OF 1804

The 1804 Dollar is a story in itself. We are not privileged to offer one at this time, but feel that any publication on silver dollars must include mention of it. Numerous essays have been written about it and collectors can find interesting reading in various publications. The last piece offered was sold in the Dunham Sale in 1941 for \$4250.00.

(It has been a generally accepted fact that proof coins were not struck at the Philadelphia mint until 1858 except for particular occasions such as the presentation of specimens to foreign mints and museums. The marketing of the Col. Green Collection has uncovered a number of proof coins dated between 1840 and 1858 in sufficient numbers to warrant cataloguing in the Standard Catalogue. As these coins are absorbed, it is our belief that the catalogue values will increase sharply. The fact is that they are quite rare, even to-day. Estimate	\$100.00

271

	<i>Estimate Price</i>	<i>Selling Price</i>
271—1870. Only once has this date ever been offered at public auction. About 29 years ago at one of Hesslein's Sales, an 1870-S sold for \$1,600.00. Mr. Hesslein announced later that he had a bid of \$2,000.00 limit on the lot. More recently a specimen was sold privately for \$1,750.00. This outstanding rarity is undoubtedly not included in most of our finest cabinets of U.S. Dollar Collections. It is generally agreed that only six specimens exist; this would make the 1870-S several times as rare as the 1804 which sold for \$4,250.00 in 1941. The coin is very fine; excessively rare.		\$—

NEW YORK 22, N. Y.

HAZELTINE'S TYPE TABLE UNITED STATES SILVER DOLLARS

(There is but one die known of the 1794 Dollar.)

The Dollars of 1795

- No. 1; flowing hair; wide date; 1 point of lower star touches the curl; the hair flows back ending in 5 decided points including the curl; (in giving the number of points of the hair, the curl is included in all the following pieces); rev., delicate wreath; 10 berries on right and 9 on left.
- No. 2; wide date; 1 point of lower star pierces the curl; the star is farther from L in "liberty" than in any other variety; the hair terminates in 6 decided points; rev., same as No. 1; the eagle rather weakly struck.
- No. 3; close date; 2 points of lower star touches the curl; the hair terminates in 6 points; the third one from the top turns downward and touches the fourth; the lowest star on the right is partly under the bust, 1 point nearly touching it; rev., delicate wreath; 16 berries; 8 on either side; scarce.
- No. 4; close date; the lower curl is a point terminating opposite the space between the 2 lower stars the lowest star on the right is entirely under the bust; hair terminates in 6 points; rev., delicate wreath; 8 berries on right and 9 on the left.
- No. 5; wide date; the lower curl is more perfect than in any of the preceding and is not near the stars, but above them; the hair terminates in 6 points; the third and fourth points are close together; rev., heavy wreath; 6 berries on right and 7 on left; there are 3 leaves under each wing of the eagle (there being only 2 in any of the preceding); the eagle's right wing passes behind a cluster of 5 leaves; strictly uncirculated; rare.
- No. 6; wide date; the curl terminates between 2 points of the lowest stars, without touching; the hair terminates in 6 points, the third and fourth close together; rev., from same die as No. 5.
- No. 7; wide date; lower curl is very small and perfect and touches point of the star; hair terminates in 6 points; lower star on the right is partly under the bust; rev., heavy wreath with 14 berries, 7 on either side; has also the 3 leaves under each wing of the eagle; very rare variety.
- No. 9; obv., same as No. 3; rev., same as No. 4; barely circulated; very rare variety.
- No. 10; obv., same as No. 1; rev., delicate wreath; 18 berries, 9 on either side; 1 of the berries is on the lower outside part of wreath, nearly opposite C in "America"; excessively rare variety.
- No. 11; obv., same as No. 3; rev., delicate wreath; 19 berries, 10 on right and 9 on left; this wreath differs from Nos. 1 and 2; the 2 berries are close together opposite first S in "States" and 2 berries are close together opposite the first A in "America"; excessively rare variety.
- No. 12; wide date; lower curl touches 1 point of the star, but terminates in a sharp point to right; the hair terminates in 6 points; rev., same as No. 5; excessively rare variety.
-

HAZELTINE'S TYPE TABLE

- No. 13; wide date; very similar to No. 6, but the curl continues on, touching 2 points of the lowest star; the third and fourth curls are longer and not so close together, while the fifth curl turns downward nearer to the star pointing to the space between 2 points of the star; rev., same as No. 1; probably unique, as I have never seen or heard of another of this variety.
- No. 14; fillet head; the head not well centered, being too far to the left; curl touches the star; rev., wreath has 7 berries.
- No. 15; fillet head; well centered; curl not touching the star; the date closer to lower star on the left; rev., wreath has 6 berries.

The Dollars of 1796

- No. 1; small close date; 2 points of lowest star touches the curl; the highest part of curl on top of the head is directly under the perpendicular stand of E in "Liberty"; rev., 7 berries in wreath; small letters in legend; rare variety.
- No. 2; small wide date; 1 point of lowest star on the left touches the hair; the highest part of curl on top of the head is under the space between B and E in "Liberty"; rev., same as No. 1.
- No. 3; small wide date, but 6 closer to 9 than in No. 2 and the 1 and 7 not so close as in No. 1; stars small and a number of them on the right imperfect; the lowest star on the left does not quite touch the hair; the curl on top of the head defective; rev., same as No. 1; scarce variety.
- No. 4; small wide date; has all the characteristics of No. 3, but the stars and curl are perfect; rev., wreath has 8 berries; lowest berry is between the leaves and ribbon bow, large letters in legend; scarce.
- No. 5; large date; rev., 7 berries, but different wreath from No. 1; a leaf in the wreath touches first S in "States"; rare.

The Dollars of 1797

- No. 1; 7 stars facing; rev., 8 berries in wreath, 1 being between the leaves and ribbon bow; a leaf points to first S in "States"; legend in large letters; the 1797 issues are the only dollars having 16 stars; rare.
- No. 2; 7 stars facing; same die as No. 1, but there seems to be an additional curl on top of the head under letter E in "Liberty"; rev., 7 berries; 2 leaves point to first T in "States"; legend in small letters; very rare variety.
- No. 3; 6 stars facing; wide date; rev., 8 berries in wreath; 1 berry underneath opposite the letter U in "United"; legend in large letters.

The Dollars of 1798

- No. 1; close date; 13 stars; knob to lower part of 9; rev., *small eagle*; 8 berries; rare.

UNITED STATES SILVER DOLLARS

- No. 2; wide date; 15 stars; end of 9 has a knob; rev., *small eagle*; 7 berries; very rare.

(The following all have 13 stars and large eagle reverses.)

- No. 3; obv., like No. 1, but wider date; knob to the 9; star not near Y in "Liberty"; rev., star not near the eagle's beak; the 3 stars on extreme left between the eagle's beak and the clouds form a triangle; the eagle's claw is nearly over the thick part of A; 13 arrows in the other claw; the 2 upper berries in olive branch not close together; the stem of the branch turns downwards; a leaf points between R and I in "America"; scarce.
- No. 4; obv., same as No. 3; rev., the 3 stars on extreme left and right, extending from eagle's head to the clouds, are nearly in a straight line; the 2 upper centre stars wide apart; the eagle's claw nearly touches the letter A; the upper part of eagle's beak shuts down on a point of the star; the 2 upper berries in olive branch are close together; 10 good and 3 imperfect arrows are in eagle's claw; the stem of the branch turns toward the eagle's tail; a leaf points to the end of I nearest to R in "America," almost touching it; scarce.
- No. 5; obv., same as No. 3; rev., similar to No. 4, but the eagle's claw not so near the letter A as in either Nos. 3 and 4 and farther to the left; a star just touches the point of upper part of eagle's beak; the leaf is farther from C and the berry from A in "America"; die broken; excessively rare; the only specimen I have seen.
- No. 6; the 8 in date just about touches the bust; the stars nearer to Y in "Liberty" than in No. 3; knob to the 9; rev., very similar to No. 4; only 10 perfect arrows in eagle's claw; the stem of the olive branch turns downwards as in No. 3; the star opposite eagle's mouth does not touch the beak; a break or mistake in the die connects by a line the lower part of first A in "America".
- No. 7; obv., same as No. 6; rev., same as No. 3; rare combination.

(None of the following 1798 dollars have knobs to the 9.)

- No. 8; the star nearer the Y in "Liberty" and the lower stars on left and right are nearer the hair and bust than in any of the preceding excepting No. 2; close date not near the bust; rev., only 4 berries on olive branch; 1 point of star touches the ribbon between B and U in "Pluribus"; another point of same star nearly touches the lower part of eagle's beak.
- No. 9; close date; 8 very near the bust; star very near the L in "Liberty"; lower star on the right almost touches the bust; rev., almost exactly like No. 3, except that the eagle's claw is a little more over the thick part of A; 12 perfect arrows and 1 stick; the second and third berries from top of olive branch closer together.

HAZELTINE'S TYPE TABLE

-
- No. 10; lower star on left very far from hair and date; date medium width; star before and after the word "Liberty," and from the bust, at even distances; rev., the 3 stars on left form an imperfect triangle; the centre star of the 3 on the right is inward from the other 2; the 2 upper berries in the branch are very close together as in No. 4; the eagle's claw is to the left of letter A and not over any part of it; 13 perfect arrows; a leaf points to the part of I nearest to R in "America"; rare variety.
- No. 11; lower star on left nearer the hair; date rather closer and smaller; star not quite so close to Y as in No. 10; otherwise very similar; this die shows a crack from the chin to the milling through the points of lower star on the right; rev., very similar to No. 10, but the points of the upper 2 stars on the left just touch the clouds; the 2 upper berries in olive branch are close together; the eagle's claw nearly directly over thick part of A in "America"; 13 perfect arrows; leaf points to the space between R and I in "America"; star not near the eagle's beak.
- No. 12; wide date; the 8 farther from the bust than in any of the preceding; the position of the stars same as No. 10, but letters in "Liberty" closer; rev., the 2 upper centre stars wide apart, as in Nos. 4, 5 and 6, and the general appearance the same as in those numbers, but all the upper stars a little closer to the clouds; eagle's claw farther from A; 13 perfect arrows; the leaf points to lower edge of I nearest to C in "America"; 1 point of star touches lower part of eagle's beak.
- No. 13; obv., same as No. 10; rev., very similar to No. 3; position of the stars very nearly the same, excepting that the centre star of the 3 extending from the back of eagle's head to the clouds is out of line more towards the ribbon; the clouds under "of" are much lighter than in No. 3; the leaf, instead of pointing between the R and I, points to the bottom on I on the side nearest to R in "America"; only 10 arrows in eagle's claw.
- No. 14; obv., very similar to No. 11, but lower star on the left closer to the hair and 8 in date a little closer to the bust; rev., the position of stars, eagle's claw and branch same as in No. 4, but the F in "of" is over the space between the 2 clouds, and the stem of the branch turns down; 13 perfect arrows; 1 leaf over C in "America" is defective; the 2 upper berries in the branch not quite so close as in No. 4; the star does not touch the eagle's beak.
- No. 15; wide date; very similar to No. 12, excepting that the 8 in date is a trifle nearer the bust and star nearer L in "Liberty"; the letters in word "Liberty" are not so close together; rev., same as No. 11.
- No. 16; wide date; very similar to No. 12, the letters in "Liberty" being close together, but the 8 in date is a little nearer the bust and the star not so near L; rev., same as No. 11; very rare variety.
- No. 17; very wide date; the 8 in date touches the bust; the star very close to L; letters in word "Liberty" wide apart; lower star on the left rather near the hair; rev., similar to No. 6; only 10 arrows in eagle's claw; no other sticks show; I think this is from the same reverse die as No. 6, as it shows the break connecting the lower parts of first A in "America"; excessively rare variety.
-

UNITED STATES SILVER DOLLARS

- No. 18; very wide date; very similar to No. 10, but wider date and star closer to L in "Liberty"; lower star on right a little farther from the bust; rev., very similar to No. 13, the most noticeable differences being the *centre star* of the 3 on the right extending from back of eagle's head to the clouds is out of line away from the scroll instead of towards it; the clouds are heavier under "of," but the claw and branch are in nearly the same position as No. 13; there are 13 perfect arrows; excessively rare variety.
- No. 19; wide date; very similar to No. 14; letters in "Liberty" a trifle closer and lower star on left not so close to the hair; a slight crack extends through E in "Liberty," across the bust to the milling through the 1 in date; rev., very similar to No. 13, but the left claw of the eagle is nearer to U in "United" than in either Nos. 13 or 18 reverses and the stars on the left are not so near the clouds; 13 arrows in eagle's claw; very rare variety.
- No. 20; obv., same as No. 18; rev., same as No. 3; scarce variety.
- No. 21; obv., same as No. 18; rev., almost exactly like No. 13, but the clouds heavier under "of" and showing an additional stick to the bunch of 10 arrows (probably a stronger impression from same reverse die); very scarce.
- No. 22; wide date; the 8 in date touches the bust; the stars not so close to L and Y in "Liberty" as in No. 17; rev., same as No. 18; this die was cracked through letter E in "States".
- No. 23; obv., same as No. 22; rev., same as No. 19.
- No. 24; obv., same as No. 14; rev., the 2 upper stars in centre partly in the clouds and weakly struck; a break in the die makes the end of the olive branch extend to the milling; the point of the upper part of eagle's beak touches a point of a star.
- No. 25; close date; similar to No. 14, but lower star on the left farther from the hair and lower star on the right nearer to the bust; the letters in word "Liberty" close together; rev., same as No. 24, but the crack in the die from the end of the branch is very slight.
- No. 26; close date; the 8 in date much higher than the other figures and entirely out of position; rev., 4 of the upper stars on the left and centre touch the clouds; 11 arrows and 2 sticks in eagle's claw; leaf in the olive branch points to the centre of 1; eagle's claw very near the letter A, but not over it.
- No. 27; obv., same as No. 26; rev., same as No. 11.
- No. 28; obv., same as No. 26; a break in the die runs from the lowest star on the left to the milling under the figure 9 and then up through the 9; this is slightly noticeable in No. 26; rev., 3 stars on the left form a triangle; the centre star of the 3 on the right, extending from the back of the eagle's head to the cloud, is depressed inward; all the upper stars are not very near the clouds; the leaf in the olive branch points to the end of 1 nearest to C in "America"; the end of the branch curves slightly toward the tail of the eagle.
-

HAZELTINE'S TYPE TABLE

No. 29; obv., same as No. 28; rev., same as No. 12.

No. 30; obv., same as No. 28; rev., very similar to No. 11, excepting that the centre star of the 3 on the right bulges outward towards the ribbon; the eagle's claw is a little nearer the letter A and the stars are not near the clouds; the point of upper part of the eagle's beak just touches a point of the star; very rare variety.

The Dollars of 1799

(Many of the following 1799 dollars described as barely circulated would be termed by many dealers as uncirculated, and are very beautiful pieces.)

No. 1; word "Liberty" wide; last 9 nearly touches the bust; stars very close together; rev., leaf points to centre of the stand of I; A in "America" touches the side of third feather in eagle's wing and rests on the fourth feather; point of star touches the point of lower part of eagle's beak, but does not enter the mouth; die cracked and scaled between R and I in "America"; very scarce.

No. 2; same obverse as No. 1; rev., leaf points to edge of I nearest to R in "America"; A does not touch the side of third feather of eagle's wing, but rests on the fourth; star touches lower part of eagle's beak and just enters the mouth; a slight crack runs through the curved part of D in "United"; scarce.

No. 3; obv., same as No. 1; rev., 15 stars, 2 of them almost entirely concealed by the clouds on extreme right and left, the points just barely emerging; scarce.

No. 4; word "Liberty" close; stars wider apart than in the preceding; 1 point of star touches the bust; the first 9 in date out of place, the lower part being too far towards the last 9; star rather close to Y; a slight crack runs through the date and "Lib" in "Liberty"; rev., same as No. 3.

No. 5; word "Liberty" close and slightly bifurcated; an evenly cut die; the stars on either side of "Liberty" are at even distances; date even and at proper distance from the bust and edge; rev., all the upper stars touch the clouds; the 2 stars on extreme upper right have each 2 points touching, and the 2 stars on upper extreme left have 1 point touching the clouds; the leaf points a little to the part of I nearest R in "America"; point of star touches the point of lower part of eagle's beak; A in "America" touches the side of third feather of eagle's wing, but does not rest on the fourth; the letters of legend slightly bifurcated.

No. 6; obv., same as No. 5; rev., the position of the stars nearly the same as in No. 5, except that the second upper star from the left has 2 points touching the clouds; A in "STATES" touches the clouds; the leaf points to the centre of the stand of I in "America" and the first A touches the third and rests on the fourth feather of eagle's wing; the point of the star touches the point of lower part of eagle's beak; AME in "America" joined at the lower part; very scarce.

UNITED STATES SILVER DOLLARS

- No. 7; obv., same as No. 5, but lower edge of word "Liberty" not bifurcated; rev., the position of the stars very similar to No. 6, excepting that the point of the star touches the point of upper part of eagle's beak; the leaf points to centre of the stand of I in "America," A in "America" touches third feather, but does not rest on the fourth; AME in "America" not joined at lower part; scarce.
- No. 8; obv., very similar to Nos. 5 and 7; but the I in date is much farther off from the curl of the hair; the lower part of word "Liberty" is bifurcated; rev., a line between the lower part of N and I in "United" nearly connects them; AME in "America" joined at the lower part; first A in "America" just barely escapes touching the eagle's wing.
- No. 9; obv., almost exactly like No. 5, but the stars are larger, giving them the appearance of being closer together; the word "Liberty" is not quite so close and the E and R farther to the left; rev., the star on upper extreme right has only 1 point touching the clouds; the next upper star has 2 points touching; the leaf points to the part of I nearest to C in "America"; the lower parts of A and M in "America" are joined; the E very close, but not touching; the stand of first A in "America" is partly under the third feather; the point of star touches the point of lower part of eagle's beak.
- No. 10; obv., same as No. 5; rev., the position of the stars answers the description of No. 9; the eagle's claw nearly touches the letter A; the leaf points to the part of I nearest to R in "America;" long stem in eagle's claw turns toward eagle's tail; the arrow points extend farther in Nos. 9 and 10 than in any of the preceding.
- No. 11; obv., same as No. 7; rev., no berries on olive branch; scarce.
- No. 12; obv., same as No. 9; rev., same as No. 11; very scarce.
- No. 13; obv., same as No. 4; rev., the extreme left and right upper stars almost touch the eagle's wings; the star does not touch the eagle's beak; the lower parts of A and M in "America" are joined; the leaf points to centre of the stand of I; the first A in "America" rests upon the fourth feather, but does not touch the third; excessively rare variety.
- No. 14; last 9 in date is closer to the bust than in any of the preceding, except Nos. 1, 2 and 3; the lowest star on the right is closer to the bust than in any of the preceding excepting No. 4; rev., the upper right star has 1 point piercing the clouds; in worn specimens it looks as if 3 points touched the clouds; the upper left star has 1 point touching the clouds; the first A in "America" does not quite touch the eagle's wing, but the lower part is joined to M; the leaf points to the centre of I; the point of a star touches the point of lower part of eagle's beak.
- No. 15; obv., same as No. 4; rev., same as the reverse of No. 24 of the 1798 dollars; the break in the die extends from the end of olive branch to the milling; very rare variety.
-

HAZELTINE'S TYPE TABLE

- No. 16; obv., very similar to No. 9, excepting that the word "Liberty" is closer, the star farther from L and the lower star on the right closer to the bust; rev., the upper star on the right has 1 point and the 2 upper stars on the left 2 points touching the clouds; the star touches the point of lower part of eagle's beak; the leaf points to part of I nearest to R in "America"; AME in "America" do not touch; the thick part of U in "United" is defective in the upper part.
- No. 17; obv., same as No. 5; rev., the 2 upper right stars have each 2 points touching the clouds; the upper left star has 1 point touching and another nearly touching the clouds; the point of star touches the upper part of eagle's beak and nearly touches the lower part; the first A in "America" does not touch the eagle's wing and the AME do not touch each other; the leaf points to part of I nearest to R and nearly touches it; very short stem in eagle's claw and the claw nearly touches the letter A.
- No. 18; the last 9 in date closer to the bust than any of the preceding excepting Nos. 1, 2 and 3; about the same as No. 14, but it differs from the latter in that the star is not so close to the bust and the upper right and left stars not quite so close to the word "Liberty"; rev., very similar to No. 5, but A in "America" does not quite touch the eagle's wing; the lower parts of the letters not bifurcated; point of star touches lower part of eagle's beak; break in the die runs between E and D in "United" across the eagle's wing to top of the shield; very rare variety.
- No. 19; obv., same as No. 18; rev., same as No. 2; very rare variety.
- No. 20; obv., same as No. 18; rev., same as No. 18, but die not cracked; excessively rare variety.
- No. 21; obv., almost the same as No. 9, but the star is a little nearer the Y and the Y closer to the T in "Liberty"; the last 9 in date is also nearer the bust; rev., same as No. 14; scarce.
- No. 22; obv., same as No. 14; rev., none of the stars touch the clouds; leaf points to the centre of stand of I in "America"; AME in "America" do not join; point of star touches lower part of eagle's beak; a break in the die runs from the edge between E and D in "United" across the upper part of eagle's breast to the edge on opposite side touching the letter M in "America"; this crack runs higher than in No. 18; rare variety.
- No. 23; obv., 5 stars facing; rev., same as No. 16; rare.

The Dollars of 1800

- No. 1; close date; slight elevation in the field running from a point of the lowest star on the left towards the hair; the 1 in date just barely escapes touching the hair; rev., point of star touches the lower part of eagle's beak and the point of the upper beak shuts down on the side of the same point of the star; the leaf *touches* the part of I nearest to C in "America"; first letter A in "America" touches the third feather in eagle's wing; AME are joined at the lower part; arrow in centre of bunch is double pointed; scarce variety.

UNITED STATES SILVER DOLLARS

- No. 2; wider date and 1 in date not quite so near the hair; star nearer to Y in "Liberty" and the T and Y closer together; last 0 in date nearer to bust than in No. 1; rev., very similar to No. 1, but the first A in "America" touches third and fourth feathers in the eagle's wing; the arrow in centre of bunch is *not* double pointed; AME join at lower part; leaf touches I as in No. 1; the only specimen of this variety I have met with.
- No. 3; obv., same as No. 2; rev., point of star enters the eagle's mouth, not touching the lower part of beak; the leaf touches the centre of lower stand of I; the 2 upper stars on the right do not quite touch the clouds; all the other upper stars have 1 point touching; the end of olive branch curls towards the tail of the eagle; AME in "America" do not join at the lower part, but are quite close; first A in "America" touches the third and fourth feathers in eagle's wing; excessively rare variety.
- No. 4; lower star on left is a little closer to the hair, the star not so close to Y, and the star a trifle closer to L in "Liberty" than in Nos. 1, 2 and 3; the 1 in date barely escapes touching the hair; rev., the eagle's beak is shut down on the extreme point of the star; the leaf points to (without touching) the centre of lower stand of I in "America"; all the letters but the last T and E in "States" touch the clouds; the F in "of" also touches the clouds; AME in "America" touch at lower part and the first A touches the third and fourth feathers in eagle's wing; very rare.
- No. 5; the lower star on the right is farther from the bust than in Nos. 1, 2, 3 and 4; the last 0 in date is farther from the bust than in Nos. 2, 3 and 4; rev., star enters eagle's mouth, but does not quite touch the lower part of the beak; the leaf points a little towards the part of the stand of I nearest to R in "America"; first A in "America" touches the third and fourth feathers, and A and M touch at the lower part, the E not quite touching; none of the letters in "States" nor the F in "of" touch the clouds; rare variety.
- No. 6; obv., same as No. 5; rev., the upper star on the right has 3 points and the next upper one has 2 points touching the clouds; the eagle's claw nearly touches the A in "America"; otherwise it answers the description of No. 5; the only specimen of this variety I have met with.
- No. 7; obv., same as No. 5; rev., the letters of the legend slightly bifurcated; the second upper star from the right does not touch the clouds; otherwise about the same as No. 5; the only specimen I have met with.
- No. 8; obv., same as No. 5; rev., the 3 upper stars on the right do not touch the clouds; the upper 3 stars on the left all have 1 point touching the clouds; the lower parts of AME in "America" do not touch; the leaf points to the centre of I; most of the letters in the legend slightly bifurcated; otherwise like No. 5.
- No. 9; obv., same as No. 5; rev., same as No. 8, but the letters not bifurcated; very rare.
-

HAZELTINE'S TYPE TABLE

- No. 10; the 0 0 in date are wider apart than in any of the preceding; the lower star on the right is close to the bust as in No. 4, but the star is farther from the L in "Liberty" than in that number or any of the preceding; the upper curl under the E is defective; the 8 in date is too low; rev., same as No. 5.
- No. 11; obv., same as No. 10; rev., the first A in "America" only touches the third feather in eagle's wing as in the reverse of No. 1, but differs from it in that the leaf points to the centre of I a little towards R in "America" and the points of the arrows extend beyond the letter N, which they do not in No. 1; scarce.
- No. 12; last 0 in date very close to bust; slightly closer than in Nos. 2 and 3; lower part of L and I slightly bifurcated; otherwise this obverse is almost exactly like No. 2; rev., star enters the eagle's mouth not touching the beak; the 2 upper stars on the left do not touch the clouds and the 2 on upper right have each 1 point touching the clouds; AME do not join; the leaf points to the part of I nearest to R in "America"; the first A in "America" does not touch either of the feathers in eagle's wing.
- No. 13; very similar to No. 10, but the stars are a little farther from L and Y and the lowest star on the left a trifle farther from the hair; the 8 in date is in a more even line; rev., very similar to No. 8, except that the A and M touch and 2 of the upper stars do not touch the clouds so decidedly and the branch is directed more towards the eagle's tail; rare.
- No. 14; almost exactly like No. 10, but lower left star farther from the hair and the date a trifle wider; this variety can be readily distinguished by several small fractures in first 0 of date; rev., the point of the star touches the point of lower part of eagle's beak; the upper part of the beak shuts down on it; M and E join; the second upper star on left has 2 points touching the clouds and the second upper star on right barely escapes touching; all the other upper stars have 1 point touching the clouds; leaf points to centre of I; first A in "America" touches the third and fourth feathers.
- No. 15; closer date; the 8 nearer to the 1; the lower star on the right nearer to the bust than in any of the preceding; it just barely escapes touching the juncture of the drapery with the bosom; rev., 3 arrow heads have no sticks; star near, but does not touch eagle's beak; first A in "America" does not touch eagle's wing; the stand of M laps over the stand of A in "America"; scarce variety.
- No. 16; closer date than any of the preceding; the 8 too low; the last 0 very near the bust; the star distant from L as in Nos. 11, 13 and 14; rev., same as No. 4.
- No. 17; the star very far from L, farther than in any of the preceding; rev., the point of star touches the point of upper part of eagle's beak; lower parts of letters in "America" slightly bifurcated; AME in "America" close, but do not join; leaf points to part of I nearest to R in "America"; the 2 upper stars on the right have each 2 points touching the clouds; first A in "America" touches the third and fourth feathers.
-

UNITED STATES SILVER DOLLARS

- No. 18; obv., same as No. 13; rev., upper part of eagle's beak shuts down on the point of the star; all the letters in the legend are bifurcated on lower part; a break in the die is like a spray running from the extreme tip of the eagle's wing on the right through F in "of" extending to the second and third upper stars on the right.
- No. 19; lower star on the right almost as close to the bust as in No. 15; but the lower star on the left is much closer to the hair and the star also farther from L; the last 0 in date very near the bust; rev., same as No. 11.

The Dollars of 1801

- No. 1; wide date; rev., point of star touches point of lower part of eagle's beak; leaf points to part of stand of I nearest to R in "America"; the points of the arrows extend to about opposite the centre of the letter N in "United"; first A in "America" touches the third and fourth feathers in eagle's wing.
- No. 2; obv., same as No. 1; rev., upper part of eagle's beak touches the point of star; the points of the arrows extend to opposite the end of letter N nearest to I in "United"; 12 arrows in eagle's claw; leaf pointing to I and the first A in "America" are in the same position as in No. 1.
- No. 3; obv., same as No. 1; rev., point of star touches the outside of upper part of eagle's beak; the points of arrows extend as in No. 2; the leaf touches the lower stand of I nearest to C in "America"; first A in "America" touches only the third feather in eagle's wing.
- No. 4; close date; differs from No. 1 in having the star farther from Y and the lower right star nearer to the bust; figure 1 in date very close (nearly touching) the curl; rev., star touches the outside of eagle's beak as in No. 3; the leaf points to the centre of stand of I; the arrows extend farther than in any of the preceding; some of them nearly opposite to I.

The Dollars of 1802

- No. 1; close date; figure 1 barely escapes touching the curl; rev., 12 arrows; the leaf points to end of stand of I nearest to R in "America"; the end of 1 of the arrows touches the eagle's tail; upper beak of eagle shuts down on point of star; very scarce variety.
- No. 2; wider date, the 1 and 8 farther apart; 1 not so near the curl, but the 2 nearer the bust; rev., 13 arrows, 2 of them imperfect; a small break shows like a point on the curved part of D in "United"; point of star touches upper part of eagle's beak on the outside; leaf points to the centre of stand of I in "America."
- No. 3; still wider date; the 1 and 8 are closer together than in No. 2, but more space between the other figures; the star is farther from L and closer to Y than in No. 2; rev., same as No. 2.

HAZELTINE'S TYPE TABLE

- No. 4; close date similar to No. 1, but in this the star is nearer the curl; figure 1 touches the hair, and star nearer to Y in "Liberty"; rev., same as No. 1 except that the thirteenth arrow is made to show, although almost hid, and the end of the arrow does not touch eagle's tail.
- No. 5; perfect wide date; 2 in date close to bust; rev., same as No. 2; rare variety.
- No. 6; perfect close date; figure 2 not so near the bust and star farther from L in "Liberty" than in No. 5; the T in "Liberty" is defective, having only half of the stand; rev., same as No. 1.

The Dollars of 1803

- No. 1; small thin 3; wide date; the extreme point of the upper part of the 3 slants towards the bust and the tip towards the 0 in date; star closer to Y in "Liberty" than in any other variety; rev., the same as the reverse of No. 2 of the 1802 dollars; rare variety.
- No. 2; wide date; the top of the 3 is parallel with the bust, the tip parallel with the 0 in date, and is lower than the other figures; the 1 in date is defective at top; the lowest star on the left is farther from the hair than in No. 1; the upper stars are at equal distances from L and Y in "Liberty"; rev., upper part of eagle's beak shuts down on point of star; 12 arrows in eagle's claw; leaf points to edge of I nearest to R in "America"; the upper left star has 1 point just barely touching the clouds; extremely rare variety.
- No. 3; close date, but the figure 3 is almost exactly like that in No. 1; the star is not so close to Y; figure 1 does not touch the hair in this or any of the preceding; rev., point of star touches the lower part of eagle's beak; 13 perfect arrows; leaf points to edge of I nearest to R in "America"; the letters A and M in "America" touch at lower part; very short stem in eagle's claw; extremely rare variety.
- No. 4; close date; the 3 has the same characteristics as in Nos. 1 and 3, but is longer, with top nearer the bust; the 1 in date touches the hair; the lower stars on left and right are very close to the hair and bust; star not so near L in "Liberty" as in any of the preceding; rev., same as No. 2.
- No. 5; still closer date; similar 3 to Nos. 1, 3 and 4, but the 3 is much higher and entirely out of its proper position and nearly touches the bust, but is not so long a figure as in No. 4; the lower right star is farther from the bust than in any of the preceding; figure 1 does not touch the hair; rev., same as No. 1.
- No. 6; very wide date; large thick 3; the lower part much below the other figures; lower star on the right very near the bust; figure 1 very near, but does not quite touch the hair; rev., same as No. 2.
